

2009 Environmental Stewardship Award recipients announced

(Calgary, AB) December 12, 2008 – Alberta Beef Producers (ABP) awarded the 2009 Environmental Stewardship Award (ESA) at the Annual General Meeting in Calgary earlier this week. OH Ranch President Bob Seaman and General Manager Todd Snodgrass accepted the award on behalf of the Longview-based ranch.

Greg Bowie, ESA Chairman, presented Bob and Todd with a hand-crafted wooden gate sign and a video highlighting their environmental contributions.

“This year’s recipients are doing a remarkable job of protecting the pristine environment in which they operate,” said Bowie. “It is very evident that the environment is at the forefront of many of the decisions on how this ranch is managed.”

Together, working on two other locations in Bassano and Dorothy, the team works hard to ensure their ranching practices have minimal impact on the environment.

“It’s a job that we take very seriously, so to be recognized for our efforts here gives us the confidence that we are headed in the right direction,” said Snodgrass.

OH Ranch Ltd.’s environmental initiatives, heritage preservation, and traditional working values are prime examples of stewardship practices that should be acknowledged and celebrated in today’s ranching industry.
